

## Introduction

Our firm, Mezzasalma Advisors, LLC, is an investment adviser registered with the Securities and Exchange Commission. We feel that it is important for you to understand how advisory and brokerage services and fees differ to determine which type of account is right for you. There are free and simple tools available to research firms and financial professionals at [www.investor.gov/CRS](http://www.investor.gov/CRS), which also provides educational materials about investment advisers, broker-dealers, and investing.

## What investment services and advice can you provide me?

We are a registered investment adviser that offers investment advisory services, including Individual Portfolio Management and Financial Planning & Consulting to clients. If you open an advisory account with our firm, we will meet with you to understand your current financial situation, existing resources, objectives, and risk tolerance. Based on what we learn, we will recommend a portfolio of investments that is monitored at least annually, and if necessary, rebalanced to meet your changing needs and goals. We will offer you advice on a regular basis and contact you at least annually to discuss your portfolio.

You can select in our agreement whether we are allowed to buy and sell investments in your account without asking you in advance (“discretion”) or only after receiving your permission (“non-discretion”). If you select non-discretion, you make the ultimate decision regarding the purchase or sale of investments. Any limitations will be described in the signed advisory agreement. We will have discretion or non-discretion until the advisory agreement is terminated by you or our firm. We generally manage client accounts on a discretionary basis. We do not restrict our advice to limited types of products or investments. Our firm requires a minimum account balance of \$50,000 to open an account for our Individual Portfolio Management service. However, our firm may make exceptions on a case-by-case basis.

Financial Planning & Consulting is also offered as a separate service for a flat fee. We do not monitor your investments for the Financial Planning & Consulting service.

*Additional information about our advisory services is in Item 4 of our Firm Brochure, which is available online at <https://adviserinfo.sec.gov/firm/brochure/129045>.*

### Questions to Ask Us:

- Given my financial situation, should I choose an investment advisory service? Why or why not?
- How will you choose investments to recommend to me?
- What is your relevant experience, including your licenses, education, and other qualifications? What do those qualifications mean?

## What fees will I pay?

You will be charged an ongoing annual fee applied quarterly based on the value of the assets in your account. Our fee schedule for Individual Portfolio Management services ranges from 2.00% to 0.50% depending on the value of the assets in your account and the types of securities in your portfolio. Since our advisory fee is based on the amount of assets in your portfolio, we have an incentive to increase the assets in your advisory account to increase our compensation. Our fees vary and may be negotiable in certain circumstances. The amount you pay will depend, for example, on the services you receive and the amount of assets in your account. Our firm’s fees will be automatically deducted from your advisory account, which will reduce the value of your advisory account. In rare cases, we will agree to send you invoices rather than automatically deduct our firm’s fees from your advisory account.

Our flat fees for Financial Planning & Consulting services generally range from \$500 to \$10,000. Fee-paying arrangements are determined on a case-by-case basis and will be detailed in the signed consulting agreement.

The custodian that holds your assets charges you a transaction fee when we buy or sell an investment for you. The custodian’s transaction fees are in addition to our firm’s fees for our Individual Portfolio Management services. You may also pay charges imposed by the custodian holding your accounts for certain investments and maintaining your account. Some investments, such as mutual funds, index funds, and exchange-traded funds, charge additional fees that will reduce the value of your investments over time.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

*Additional information about our fees is in Item 5 of our Firm Brochure, which is available online at <https://adviserinfo.sec.gov/firm/brochure/129045>.*

**Questions to Ask Us:**

- Help me understand how these fees and costs may affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs and how much will be invested for me?

**What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?**

*When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice, we provide you. Here are some examples to help you understand what this means:*

Our financial professionals are Certified Public Accountants and own Mezzasalma CPAs, an affiliated accounting firm. In such capacity, they also provide income tax preparation or accounting services. These services are independent of our financial planning and investment advisory services and are governed under a separate engagement agreement. Our financial professionals may have an incentive to recommend that our firm's advisory clients engage Mezzasalma CPAs for tax and/or accounting services.

John Mezzasalma is a licensed insurance agent. He may offer insurance products and receive customary fees as a result of insurance sales. A conflict of interest exists as these insurance sales create an incentive to recommend products based on the compensation that he may earn.

*Additional information about our conflicts of interest is in Item 10 of our Firm Brochure, which is available online at <https://adviserinfo.sec.gov/firm/brochure/129045>.*

**Questions to Ask Us:**

- How might your conflicts of interest affect me, and how will you address them?

**How do your financial professionals make money?**

Our financial professionals are compensated based on the revenue our firm earns from their advisory services or recommendations, the amount of client assets they service, and the time and complexity required to meet a client's needs. In addition, John Mezzasalma is compensated based on insurance product sales commissions.

**Do you or your financial professionals have legal or disciplinary history?**

No, our firm and financial professionals do not have any legal and disciplinary history to disclose. Visit [Investor.gov/CRS](http://Investor.gov/CRS) for a free and simple search tool to research our firm and our financial professionals.

**Questions to Ask Us:**

- As a financial professional, do you have any disciplinary history? For what type of conduct?

**Additional Information**

You can find additional information about our firm's investment advisory services on the SEC's website at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov) by searching CRD #129045. You may also contact our firm at (732) 842-1120 to request a copy of this relationship summary and other up-to-date information.

**Questions to Ask Us:**

- Who is my primary contact person? Is he or she a representative of an investment adviser or a broker-dealer? Who can I talk to if I have concerns about how this person is treating me?
